ABSTRACT

This directory lists all reported public elementary and secondary education agencies in 50 states, the District of Columbia, five outlying districts (American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the Virgin Islands), and the Department of Defense. Types of agencies include regular school districts, supervisory union administrative centers, regional educational service agencies, state-operated agencies, federally operated agencies, and other agencies. The introduction has several summary tables. Table 1 shows number and percentage of education agencies by type and by state. Regular school districts comprise over 90 percent of all agencies listed. Table 2 indicates what percentage of 14,766 regular school districts, by pupil membership, serve what percentage of students. Although school districts in three categories representing the largest districts comprise only 5.2 percent of all school districts, they serve 48.8 percent of all public school students. Table 3 provides a breakdown of regular school districts by grade span and membership. Table 4 gives a breakdown of regular school districts by grade span and by state. Table 5 shows the number of regular school districts in each size category by state. Table 6 shows the number of regular school districts with student membership in each state and indicates the number of students in districts at selected percentile intervals on an ascending size scale. The median U.S. school district has 1,052 pupils. Following the actual tables and the school universe listing are appendices containing state education agency addresses and sample survey forms. The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to:

Foreword

This directory is part of the continuing series of education directories of the National Center for Education Statistics. We issue this publication in order to provide a current listing of local public school systems and other education agencies to the many institutions and organizations that deal with these entities. The overseas regional offices of the U.S. Department of Defense Dependents Schools are also included in this report. Data in this publication will be accessible electronically on the NCES Web site upon approval and release.

We look forward to continued comments from the education community so our products may be increasingly useful.

Paul Planchon
Associate Commissioner
Surveys and Cooperative Systems Group

Lee Hoffman
Program Manager
Elementary/Secondary Cooperative Programs

Acknowledgments

Common Core of Data Coordinators, designated by the Chief State School Officers as official state liaisons with the National Center for Education Statistics (NCES), are the primary providers of the information presented in this document. The Directory of Public Elementary and Secondary Education Agencies, 1995–96, could not have been developed without substantial efforts by these coordinators. There are others in each state who spent hours assisting the Common Core of Data Coordinators in providing this information to NCES. Although we cannot list the names of all of these people, we wish to thank them for their invaluable assistance.

Below is a list of all Common Core of Data Coordinators and Chief State School Officers. A list of state education agency addresses is provided as an appendix to this directory.

State	Common Core of Data Coordinators	Chief State School Officers

Universe of Public Elementary and Secondary Education Agencies: 1995–96 1

Appendices

A. State Education Agency Addresses 399
B. Education Agency Sample Survey Form 405
C. School Universe Sample Survey Form 406

Introduction

One of the major responsibilities of the National Center for Education Statistics (NCES) is to report on the condition of public elementary and secondary education in the United States. In support of this mission, NCES collects from state education agencies selected data items about all the public elementary and secondary schools and education agencies in the 50 states, the District of Columbia and the 5 outlying areas: American Samoa, Guam, Commonwealth of the Northern Mariana Islands, Puerto Rico, and the Virgin Islands. Information is also provided by the U.S. Department of Defense (DOD) on its dependents schools overseas.

Information on the universe of public schools and education agencies is collected annually in the NCES Common Core of Data (CCD) surveys. The surveys are completed from administrative records of the state education agencies by Common Core of Data Coordinators who are designated by their chief state school officers as official state liaisons with the National Center for Education Statistics.

The information for this publication comes primarily from the CCD education agency universe data collection of Spring, 1996. In the Introduction, several tables that summarize the contents of the file are provided. They are followed by the listing of education agencies, organized by state and type of agency. The directory lists all reported public elementary/secondary education agencies in the 50 states, the District of Columbia, the 5 outlying areas, and DOD. *An agency cannot be designated as more than one type, and if there are no agencies of a given type in a state, the heading for that type is omitted.* Definitions of agency types are given on page xvii.

Using the Directory

A complete entry for an agency includes the following information:

- State
- Name of agency
- Mailing address including:
  Street or P.O. Box
  City of mailing address
  ZIP code
- Telephone number
- Name of county
- Metropolitan status code
- Grade span
- Student membership
- Number of regular high school graduates (1994–95 school year)
- Number of students with an Individualized Education Program (IEP)
- Number of teachers
- Number of schools

State

The state in which an agency is located is identified in the upper left-hand or right-hand corner of the page.

Name of Agency

This column lists the names of education agencies providing public elementary and secondary education, in alphabetic and/or numeric order, grouped by type of agency within state or state-level jurisdiction. The listed agency name is the name commonly used within the state, as supplied by the state education agency. It may differ from the legal name of the education agency. *If there are no agencies of a given type in a state, the heading for that type is omitted from the listing.*

Street or P.O. Box of Mailing Address

This is the post office box number, rural route number, or the building's block number and name of the street where mail to the agency's chief executive officer should be addressed. The mailing address given here may not represent the physical location of the agency. If the field is blank, no street address is used by the state education agency in mailings to the education agency.

City of Mailing Address

This column provides the name of the city used in the mailing address of the agency's chief executive officer. If a state name abbreviation appears in this column, then the mailing address of the agency is located in the state shown rather than in the state actually served by the agency. This was true for 17 agencies in 1995–96. The street address and ZIP code also follow this convention. If no address was supplied by the state CCD coordinator (as was the case for 93 agencies), this field is blank.

ZIP Code

The ZIP code is assigned by the U.S. Postal Service to aid in the delivery of mail. The first digit is a regional identifier, the next 2 digits identify the post office, and the next 2 digits identify the block or zone.

Telephone Number

The entry in this column lists the 3-digit area code, 3-digit exchange, and 4-digit local telephone number of the administrative office of the agency's chief executive officer. If no number was supplied by the state CCD coordinator, this field is blank (66 agency telephone numbers were not reported or missing).

Name of County

The entry in this column is the county where the chief executive officer of the agency maintains the agency's operational and administrative base. If no county is given, this field is blank.

Metro Status Code (MSC)

This column presents a single-digit code that classifies an education agency's service area relative to one of the 355 Metropolitan Statistical Areas (MSA) determined by the Bureau of Census during the 1980 Decennial Census and updated as of 1990. The following codes are used:

1—The agency serves the central city of an MSA.
2—The agency serves an MSA but not primarily its central city.
3—The agency does not serve an MSA.

Grade Span

The entries of this column identify the lowest and highest grades served by the agency, as inferred from student membership data for the schools affiliated with the agency. This span is represented by a five-character code with the general form LL-HH, where LL represents the lowest grade level offered by the agency's schools and HH represents the highest grade level offered. The following codes are used to describe grade-span when numerical designations are inappropriate:

PK= Prekindergarten
KG= Kindergarten
UG= Ungraded

Grades recognized for inclusion in the universe of elementary and secondary agencies range from prekindergarten (PK) through grade twelve (12). Note that a district whose span is identified by grades may also include ungraded pupils. In addition, two grade-span patterns are used that require explanation:

UG-UG: This category is used to indicate that all of the students of an agency are ungraded. This is typically the case with regional educational services agencies (RESA).

00-00: This designation identifies agencies that have no responsibility for instructing students or that have no schools associated with them. The most prevalent of these are supervisory union administrative centers, special-purpose agencies that provide the services of a common superintendent of schools and business manager to clusters of small agencies.

Student Membership

Student membership is defined as the unduplicated count of students on the roll of the agency (excluding any formerly enrolled students who withdrew), taken on the school day closest to October 1, 1995.

Various conditions exist in which student membership may not be reported for an agency. Some types of agencies, such as supervisory union administrative centers or regional education service agencies, typically do not report students. Some regular school districts contract with other agencies to provide services for a portion of their students rather than operate schools for these students themselves. In these cases, student membership is not reported for the receiving district in order to avoid duplication of student counts. Conversely, in cases where all students are sent to a contracting agency, no membership is reported for the sending, or "nonoperating," district. Student membership is also not generally attributed to supervisory union administrative centers or regional education service agencies. In this field and the remaining data fields, missing or "not applicable" responses are represented by three dashes (---).

1994–95 Regular High School (HS) Graduates

This figure represents the number of students who have received a diploma from a regular high school program or summer school in this agency during the period September 1994 through August 1995. Not included in this count are other high school completers such as graduates of adult education programs, GED certificate recipients, and completers of educational programs for which a certificate other than a diploma is awarded.

Special Education Individualized Education Program (IEP)

This is a count of all students under the jurisdiction of this agency who have an Individualized Education Program on file under the Individuals with Disabilities Education Act (IDEA-Part B). (These students are also included in the Total Student Membership field.) No special education IEP counts were reported by Kentucky, Minnesota, and Washington.

Teachers

This figure represents the number of classroom teachers reported in the schools associated with each agency. The source of this number is the 1995–96 CCD Public Education Agency Universe. Teachers who are not assigned to schools, such as teachers of the homebound or itinerant teachers who serve pupils in several schools, may not be included in this count in all cases. This number is reported in full-time equivalents rather than head counts. It is reported to one decimal place at the school level but the sum for each agency, as reported in this directory, is rounded to the nearest whole number. Minnesota did not report teachers on the Public Elementary/Secondary Education Agency Universe in 1995–96. Teacher data for Minnesota were taken from the CCD Public School Universe.

Schools

This represents the number of schools operated by the agency.

Types of Agencies

- ***Regular school districts*** are agencies responsible for providing free public elementary and secondary education for school-age children residing within their jurisdiction. These agencies may include special and vocational education in a comprehensive educational setting. In some cases, these education agencies contract with other agencies to provide services rather than operating schools themselves.

- ***Supervisory union administrative centers*** are agencies that provide administrative services for a group of small school districts. Terminology varies among reporting state education agencies. For example, in Nebraska each county superintendent provides administrative services to all school districts within the county having fewer than seven teachers. In that state the supervisory unions are called "county administered systems." Although supervisory union administrative centers generally do not report student membership, there may be some exceptions to this rule.

  In this directory, the administrative center and regular districts which it serves are listed separately as a consequence of organizing the agency listings in alphabetic order within type of agency.

- ***Regional educational service agencies (RESA)*** are agencies that provide special services (such as regional vocational/technical or special education) to other public elementary and secondary education agencies.

- ***State-operated agencies*** are any elementary, secondary, or combined education programs operated by a state agency (such as state schools for the blind or deaf) reported by the CCD Coordinator.

- ***Federally operated agencies*** are any elementary, secondary, or combined education programs operated by a federal agency (such as Bureau of Indian Affairs) reported by the CCD Coordinator.

- ***Other agencies*** are any elementary, secondary, or combined education programs that cannot be appropriately classified using another CCD designation and that have been reported as such by the state's CCD Coordinator.

- ***Districts having student membership*** include all regular school districts for which membership of one or more students was reported by the state's CCD Coordinator for the 1995–96 school year.

Summary Tables

Summary Tables

An overview of the patterns of elementary/secondary education agencies within the reporting states can be gained by an examination of the six summary tables provided.

Table 1 shows the number and percentage of public elementary/secondary education agencies, by type of agency and by state. In all but nine states, the District of Columbia, the outlying areas, (excluding DOD Dependents Schools), some educational services are provided by agencies other than regular school districts. These agencies take many forms and serve varied purposes, but they generally provide special educational services such as special or vocational education programs to a cluster of school districts in a specified jurisdiction.

Table 2 indicates what percentage of 14,766 regular school districts, by pupil membership, serve what percentage of elementary/secondary school students in the United States. The primary purpose of this table is to allow users of the Directory to focus their attention on the size of district most appropriate to their interests. Note that although school districts in the three categories representing the largest districts (memberships 10,000 and higher) comprise only 5.2 percent of all school districts, they serve 48.8 percent of all public school students in the United States.

Table 3 provides a breakdown of regular school districts by grade span and membership to enable researchers and other users of the directory to make judgments about the characteristics of this universe. It can be seen from this table that elementary/secondary unified school districts (those offering PK, K through 12) represent 71.1 percent of all regular school districts.

Table 4 gives a breakdown of regular school districts by grade span and state. While most states' school districts are PK, K, 1 to 12, there are states who choose, by definition, to designate larger proportions of districts as either elementary or secondary districts. What occurs as a result of these designations is variance in reporting among states as shown on this table.

Table 5 shows the number of regular school districts in each size category by state. It can be seen from this table that small school districts are more prevalent than large ones, but that the ratio of small districts to large ones varies widely among states.

Table 6, in addition to showing the number of regular school districts having student membership in each state, indicates the number of students in membership in school districts at selected percentile intervals on an ascending size scale. A total of 77 regular school districts reported no students in membership and an additional 322 regular school districts reported zero students and therefore do not appear on this table. In the United States, the median school district has 1,052 pupils in membership; the average, or mean, number of pupils in a district is 3,089. In the 1994–95 *Directory*, the median was 1,039 and the mean was 3,033 pupils.

Table 1.--Number and percentage of public elementary and secondary education agencies, by type of agency, and by state: School year 1995-96

State	Total agencies	Regular school district including supervisory union components		Regional education service agencies & supervisory union administrative centers		State operated agencies		Federally operated and other agencies	
		Number	Percent	Number	Percent	Number	Percent	Number	Percent
